Recent Information Technology graduate with a background in programming and problem-solving. I am looking to start a career in software development, including web, mobile, or other IT-related fields. I am eager to learn, develop myself, and contribute effectively to long-term projects in a professional environment.

WORK EXPERIENCE

Frontend Developer (Intern)   **Jan 2024 - May 2024**
FPT Software Academy HCM   **Ho Chi Minh, Viet Nam**

Contributed to an educational platform project as a Frontend Developer. Developed and optimized reusable UI components based on design and business requirements. Worked with ReactJS/TypeScript to implement features. Collaborated with the team using Git for version control and participated in agile workflows.

EDUCATION

Bachelor of Information Technology   **Oct 2020 - Sep 2025**
FPT University   **GPA:** GPA: 7.7

Major in Software Engineering, specialized in Frontend Development. Participate in academic projects and practice developing websites and mobile applications

PROJECTS

Garbage collection management system ⧉   **Dec 2024 - Jul 2025**

- This is **capstone project** developing a waste collection management system, including a **website** and **mobile** application.
- Role: Frontend Developer – built the management website by **React** with **Typescript** and the staff mobile application with **React Native**.
- Implemented core features such as task management, collection tracking, and administrator can config system information Requested by District 1 Public Services Company Limited (HCMC) and received by REVA Enterprise Solution Development JSC, then trusted and assigned to our team to implement.
- **Github**: *github.com/HeThongThuGom-DVCI-Q1*

Personal Portfolio Website ⧉   **Nov 2023 - Dec 2023**

- Final project of an HTML/CSS programming course, creating a static website to showcase personal information and skills. Independently designed and developed the layout using **HTML5** and **CSS3**. Focused on clean design, responsive layout, and user-friendly interface.
- **Github**: *github.com/nguyentrunghieu297/htmlcsspro-project-08*
